NMB ISSUES PROPOSED RULE ON ELECTIONS AND REPRESENTATION DISPUTES

The National Mediation Board has issued a proposed rule amending regulations for handling run-off elections and representation disputes. Under current rules, when an election results in no majority winner the Board aggregates the votes to determine whether a majority wanted some kind of representation and if so, holds a run-off election between the two persons or organizations that received the most votes. Under the proposed rule, run-off elections will be between the two ballot options that received the most votes, even if one of the top vote-getters is the “no union” option. The showing of interest requirement to invoke a Board investigation of a representation dispute is also being amended to require not less than fifty percent support in all cases instead of the current thirty-five percent support for unrepresented employees, interveners and employees of merging entities.

The changes were required by amendments to the Railway Labor Act contained in the FAA Modernization and Reform Act enacted in February this year. Comments are due by July 16, 2012. A copy of the rule is attached.

pieces. This must be demonstrated by testing to failure.

3. *Component Strength.* The glass component must be strong enough to meet the load requirements for all flight and landing loads including any of the applicable emergency landing conditions in subparts C and D of part 25. Abuse loading without failure, such as impact from occupants stumbling into, leaning against, sitting on, or performing other intentional or unintentional forceful contact, must also be demonstrated. This must be demonstrated by static structural testing to ultimate load, except that the critical loading condition must be tested to failure in the as-installed condition. The tested glass must have all features that affect component strength, such as etched surfaces, cut or engraved designs, holes, and so forth. Glass pieces must be non-hazardous.

4. *Component Retention.* The glass component, as installed in the airplane, must not come free of its restraint or mounting system in the event of an emergency landing. A test must be performed to demonstrate that the occupants would be protected from the effects of the component failing or becoming free of restraint under dynamic loading. The dynamic loading of § 25.562(b)(2) is considered an acceptable dynamic event. The applicant may propose an alternate pulse; however, the impulse and peak load may not be less than that of § 25.562(b)(2). As an alternative to a dynamic test, static testing may be used if the loading is assessed as equivalent as or more critical than a dynamic test, based upon validated dynamic analysis. Both the primary directional loading and rebound conditions need to be assessed.

5. *Instructions for Continued Airworthiness.* The instructions for continued airworthiness will reflect the fastening method used and will ensure the reliability of the methods used (e.g., life limit of adhesives, or clamp connection). Inspection methods and intervals will be defined based upon adhesion data from the manufacturer of the adhesive or actual adhesion test data, if necessary.

Issued in Renton, Washington, on May 1, 2012.

SUPPLEMENTARY INFORMATION: On February 14, 2012, the President signed the Federal Aviation Administration Modernization and Reform Act of 2012, Public Law 112-095 (FAA Reauthorization) into law. The FAA Reauthorization contained, inter alia, several amendments to the RLA. The changes contained in these amendments

impact the Board's current Rules relating to run-off elections, showing of interest requirements, and rulemaking. These Rules are being revised to comply with the statutory language. As discussed below, the Board invites commenters to address specific questions below, along with any other matters they consider relevant to the changes wrought by the amended statutory language. The Board is particularly interested in receiving comments regarding the effect of the amendments on the Board's policies and practices with respect to representation disputes in mergers. The NMB may incorporate any comments in a Final Rule in this proceeding. The NMB will hold an open public hearing during the comment period. A notice will be published containing the dates of the open public hearing and related information.

Run-Off Elections

Prior to the enactment of the FAA Reauthorization, under its previous practice in representation elections, the Board aggregated all votes cast for representation, including write-in votes.¹ Where a majority of employees have cast valid ballots for representation but no individual or organization received a majority of the ballots cast, the issue to be determined was which of the individuals or organizations would be the representative. Thus, the run-off election, once authorized, would be between the two individuals or organizations that received the highest number of votes. 29 CFR 1206.1. The amendments to the RLA now require that the Board no longer aggregate votes for representation and that any run-off election will be between the two ballot options that receive the most votes. This can include the "no" option.

The Board's Rules also required that a participant initiate a run-off election with a written request. 29 CFR 1206.1. The amended language now requires the Board to "arrange for" a second election when no ballot option receives a majority of the ballots cast.

Showing of Interest

Prior to these amendments, the showing of interest requirements needed to support an application under Section 2, Ninth of the RLA invoking the Board's services to investigate a representation dispute among a carrier's

¹ The NMB has a longstanding practice of allowing write-in votes for representation. *International Total Services*, 16 NMB 231, 233 (1989) (rejecting union objection to inclusion of write-in option since the provision for write-in votes in NMB elections has remained largely unchanged for over 50 years).

employees were established by the exercise of the Board's discretion under Section 2, Ninth, and by the NMB's Rules. 29 CFR 1206.2, 1206.5. The showing of interest requirements were not defined by statute. The NMB's Rules provided that an individual or organization needed to support their application with authorization cards from thirty-five percent of the craft or class if those employees were unrepresented and authorization cards from more than fifty percent of the craft or class if those employees were already represented. 29 CFR 1206.2. An intervening individual or organization needed a thirty-five percent showing of interest to get on the ballot. 29 CFR 1206.5. The amended statutory language provides that a showing of interest of not less than fifty percent is required to support an "application requesting that an organization or individual be certified as the representative of any craft or class of employees." 45 U.S.C. 152, Twelfth.

The amended language is silent with regard to mergers. Courts have long recognized that the NMB, under Section 2, Ninth, has the authority to resolve representation disputes arising from a merger involving a carrier or carriers covered by the RLA. *Air Line Employees Ass'n, Int'l v. Republic Airlines, Inc.*, 798 F.2d 967 (7th Cir. 1986). An organization or individual initiates this process by filing an application supported by evidence of representation or a showing of interest. After the NMB determines that a single transportation system exists, the Board's investigation will proceed to address the representation of the craft or class. The Board's current policy in mergers requires that "[i]ncumbent organizations or individuals on the affected carrier(s) must submit evidence of representation or a showing of interest from at least thirty-five (35) percent of the employees in the craft or class." NMB Representation Manual (Representation Manual) Section 19.601.² The Representation Manual further states that the "rules regarding percentage of valid authorizations in NMB Rule 1206.2 (29 CFR 1206.2) and bar rules in NMB Rule 1206.4 (29 CFR 1206.4) do not apply to applications" in merger situations. Representation Manual Section 19.6. The amended RLA, however, now requires at least a fifty percent showing of interest for applications to certify a representation

of any craft or class. The Board's merger procedures include the filing of an application to certify a representative of the newly merged craft or class. The Board seeks comments regarding the impact of the amended language on the Board's policies and procedures with regard to mergers.

Rulemaking Authority

The FAA Reauthorization also amends the RLA to specifically provide rulemaking under the Administrative Procedure Act (APA) with the added requirement of a hearing in addition to the notice and comment provisions of Section 553 of the APA.

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The NMB certifies that this rule will not have a significant impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The proposed rule affects only the Board's election process, the method used by the NMB to determine the outcome of a self-organization vote by employees, and internal NMB procedures. The proposed rule imposes no requirements upon carriers or derivative carriers subject to the RLA. The proposed rule would not directly affect any entities that are small businesses under the Regulatory Flexibility Act. Accordingly, the National Mediation Board certifies that it will not have a significant impact on a substantial number of small entities.

National Environmental Policy Act

This proposal will not have any significant impact on the quality of the human environment under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*).

(b) The requirements of paragraph (a) of this section shall not apply to any rule or proposed rule to which the third sentence of section 553(b) of the Administrative Procedure Act applies.

(c) Any interested person may petition the Board, in writing, for the issuance, amendment, or repeal of a rule or regulation in this part. An original and three copies of such petition shall be filed with the Board in Washington, DC, and shall state the rule or regulation proposed to be issued, amended, or repealed, together with a statement of grounds in support of such petition.

Background and Purpose

The Port Huron to Mackinac sail race (currently titled the "Bell's Beer Bayview Mackinac Race") is an annual regatta that has taken place since 1925. The race occurs in July of each year with a starting point in Port Huron, MI. It is typical for more than 200 sailboats
